CLERK'S ALERT

King County Superior Court Clerk's Office Systems Replacement Project

The King County Clerk's Office/Department of Judicial Administration will soon be upgrading its [Electronic Court Records \(ECR\) Online](#) and [Electronic Records Requests \(ERR\)](#) applications!

Currently, the ECR Online application provides on-line access to some publicly available court records per [LGR 31](#). Through the ERR application customers can order copies of court records, recordings of court hearings, and request research assistance.

With the new upgrade, customers will be able to go to one place, the KC Script Portal, for all of these services (ECR and ERR). This new functionality will result in a number of impacts to customers; please stay tuned for updates.

In preparation of the electronic changes above, the Clerk's Office will provide instructions and webinars, guiding customers on how to create accounts and use the new functionality. These resources will be offered to current and new customers before launching the new system.

Customers can get updates of this new portal upgrade by subscribing to King County Clerk's Office System Replacement Updates. To subscribe, go to the [King County Subscriptions website](#) and enter your email address. When you get to the Quick Subscribe page, scroll down the list to the Superior Court Clerk's Office section and check the box next to "System Replacement Updates."
