CLERK'S ALERT

King County Superior Court Clerk's Office Systems Replacement Project – Release Date and Webinars; KC Script Offline This Weekend

The King County Clerk's Office/Department of Judicial Administration will be launching new functionality to replace its [Electronic Court Records \(ECR\) Online](#) and [Electronic Records Requests \(ERR\)](#) applications on March 28, 2022.

Currently, the ECR Online application provides on-line access to some publicly available court records per [LGR 31](#). Through the ERR application, customers can order copies of court records, recordings of court hearings, and request research assistance.

With the replacement, customers will be able to go to one place, the KC Script Portal, for both of these services: ECR Online and ERR.

In preparation of the replacement, the Clerk's Office is conducting webinars that provide an overview of the new KC Script Portal. The webinars will include how to set up and manage your account, how to search for case information, and how to order and view documents, hearings, issuance requests and more. Please click on one of the links below to register for a webinar session.
