

Metro Flex Pilot

What you should know:

Metro Flex is an on-demand flexible service that connects people to and from points within a specified service area.

The map shows a proposed, pilot service area to be tested for two years as part of the East Link Connections proposed bus network.

It would provide another option for people to connect to transit and community points of interest where buses may be available or easy to reach.

This flexible service would operate:

- Seven days a week, Sunday to Saturday
- 6 a.m. to 11 p.m.

The map shows the proposed service area.

To learn more about how on-demand flexible service currently operates in King County, visit [this webpage](#).
